

Village of Oakfield Swimming Pool Fill Policy

(Updated 10/10/22)

- A. Any customer of the Village of Oakfield Water and Sewer Utility will be allowed a sewer usage credit once a year for the filling of a swimming pool as long as the pool holds a minimum of 7,000 gallons. The credit will be based on the current sewer usage rates at the time of the pool filling.
- B. The customer is responsible for notifying the Village Office before and after the pool filling takes place and providing the start/end time and date(s) of the filling prior to the creation of the next water bill. Bills will not be adjusted and no credit will be given if this procedure is not followed.
- C. A meter may be attached to the outside faucet used for filling.
- D. The filling of a swimming pool must be completed within 72 hours from the start of filling.
- E. There will be an administrative fee of \$40.00 for reading the meter prior to filling and after filling in order to calculate a sewer credit from pool filling.
- F. Filling pools within the village limits by using a fire hydrant is prohibited.
